Work experience

- 2019-current University of Cambridge and University of Gothenburg, Post doc
Research program aiming to understand NK cell regulation in ovarian cancer, with the long-term goal to develop novel immunotherapeutic approaches
- 2020-2021 Parental leave between 2020-08-19 to 2021-07-01
- 2018-2019 University of Gothenburg, Post doc at Sahlgrenska Cancer Center
- 2013-2017 University of Gothenburg, PhD student at Sahlgrenska Cancer Center
- 2012-2013 Chalmers University of Technology, Project assistant

Education

- 2013-2017 University of Gothenburg, PhD in Medical Science
Thesis title: "Impact of NK cell repertoires on immunotherapy in acute myeloid leukemia"
- 2011-2012 Chalmers University of Technology, Master's thesis.
Thesis title: "Development of a microfluidic platform to study cell migration along gradients".
- 2009-2011 Chalmers University of Technology, Master of Science
Master program: Biotechnology, Track: Biomaterials and Tissue Engineering
- 2009-2011 Simon Fraser University, Canada, Exchange student
- 2006-2009 Chalmers University of Technology, Bachelor of Science
Program: Biotechnology
- 2002-2005 Hvitfeldtska gymnasiet
Specially designed program related to the natural science program.
